# 1 Using RSAT as web service

## 1.1 Introduction

*RSAT* facilities can be used as web services (*WS*), i.e. external developers (you) can use *RSAT* facilities in their own code. One important advantage of web services is that they are using a standard communication interface between client and server, and the libraries exist in various languages (Perl, Python, java).

We explain below how to implement a WS

## 1.2 Requirements
